Il bianco, la tonalità che contiene in sé tutti i colori, assume diversi significati e trasmette emozioni diverse, anche a seconda del tessuto, dell'ambiente della casa, dello stesso momento della giornata. Ivano Redaelli esplora l'universo del bianco, declinato attraverso molteplici texture, luminosità, trasparenze e contesti: dal lino al cotone, dal raso alla garza, dalla tavola, allo spazio notte, alla sala da bagno.

All colors in one: the white shade assumes a lot of meaning and gives different emotions, according to a fabric, a home ambient, a daily moment itself. Ivano Redaelli explores the universe of white, which is inflected into many textures, brightness, transparency and contests: from linen to cotton, satin to gauze, from jersey until sponge fixing every single place at home.
